"Mental Dwarfs", as referred to in this site, are those fbi/cia agents, operatives, thugs and assassins (including members of the community at large) and their supporters who engage in the villainous conduct depicted in My Story In Detail, particularly in efforts to terrorize and demoralize the Target for the purpose of killing and/or imprisoning same; the conduct includes, but is not limited to, the following: electronic and physical surveillance (and related tactics-such as the placing of a tracking device into the person of the Target, psychotronics, psyops, etc.), home and car invasions with strategic tamperings therein, destruction of the Target's personal property, poisonings of the target in his home and in restaurants, otherwise torturing the Target in various locations (by use of doctors, dentists and others), engaging in extreme and widespread calumny, slander and disinformation against the Target, watching the Target in real time as the Target responds to the dirty tricks being played on him both in his car and in his home, sending the Target specially coded messages, using trigger words and phrases, to enhance the terrorist effects of the above cited hideous actions and generally engaging in uncivil (& oftentimes abrasive actions against the Target) in efforts to provoke the Target into physical confrontation, or in efforts to lure/entrap the Target into performing some type of unacceptable or injurious conduct. Those who aid or condone the actions of the Mental Dwarfs and those who fail in their responsibility to stop the Mental Dwarfs, are also Mental Dwarfs (md) by default. This means that our civilization is dominated by those who have not the vision to recognize their own depravity, even as they (the mds) engage in the torture and the killing of some of the best and most productively creative persons in our midst; such mds are the bane of Humanity because they neither seek nor recognize any grand truth in their low existence. Finally, the md is a

View the following definition and note that the reference to small "features" suggests that the minds of the fbi/cia agents, operatives, handlers, supporters (as described in www.sosbeevfbi.com) are pathetic in dimension when contrasted to the heart, mind and soul of humanitarians that we may study throughout history:
