

Human beings have "no difficulty in exterminating one another to the last man." Sigmund Freud  
(Civilization and Its Discontents, 1930)

From Brownsville, Texas

April 5, 2004

The tactics employed globally by the fbi/cia reflect the homicidal profile of the enforcers and perpetrators of the new, stagnant and completely controlled world. These tactics include, but are not limited to the following :

**Mass murder (sometimes one at a time)**

Torture (physical and psychological)

**Terrorism**

**Blackmail (of a mortifying type)**

**Stalking and kidnapping and fraudulent stings by law enforcement**

Burglary, robbery, theft, fraud, extortion

False imprisonment, abuse of civil process and disabling calumny

**Financial isolation and ruination**

**Human experimentation (of a monstrous type)**

Programme for suicide (*inter alia*) of the targeted individuals

Psychological operations and mind control

**Psychoelectronic bombardment**

## Neuronal Entrainment, An Admission

See the following admission by USA, showing that my reports of high tech assaults on my person are legitimate.

The data shown in the Neuron Entrainment link below confirms that indeed the fbi/cia/marines, etc. have (and use) the high tech weaponry against human beings, and more particularly against this veteran:

Note that under the psychoelectronic bombardment, chemical and stalking sections (at world in a box), there are several links; here are three more very important links to add to the list:
